

Service Overview

EXTRACTION & PROCESSING SOLUTIONS

From Concept to Completion: Your Partner in Post-Harvest Solutions.

INTEGRATED SERVICES FOR END-TO-END SUCCESS

At urban-gro, our Controlled Environment Agriculture (CEA) Division delivers complete cannabis post-harvest, manufacturing, and processing solutions. Combining in-house MEP-FP (Mechanical, Electrical, Plumbing, and Fire Protection), architectural, and construction expertise with turnkey equipment offerings, we provide a fully integrated, scalable approach tailored to your facility's needs.

EXPERTISE

10+ years of experience in cannabis facility design.

INTEGRATION

Managed projects from design to operational launch.

COMPLIANCE

Ensured adherence to all industry and regulatory standards.

SOLUTIONS

Delivered custom services aligned with operational goals.
